

swig::SwigPtr\_PyObject

```
graph BT; A[swig::SwigVar_PyObject] --> B[swig::SwigPtr_PyObject];
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a white box labeled 'swig::SwigVar\_PyObject'. At the top is a gray box labeled 'swig::SwigPtr\_PyObject'. Two blue arrows originate from the top of the white box and point upwards to the bottom of the gray box, indicating that 'swig::SwigVar\_PyObject' inherits from 'swig::SwigPtr\_PyObject'.
